Commissioner Jane E. Henney
Parklawn Building, Rm. 14-71
5600 Fishers Lane
Rockville, MD 20857

Dear Commissioner Henney,

We feel that food products that have been irradiated need to have a prominent disclosure on the front of the package. Consumers have a right to know if this process has been used on the food they purchase. Personally, we do not wish to eat irradiated food. The hazards involved with using and disposing of radioactive materials are not worth the benefits irradiation might provide.

Sincerely,

Scott Schneider
Sylvia Schneider
